Takeaway

- **A facility supporting open DAS data handling and persistent data storage provides significant value to the research community.**
- **Many of the initial technical challenges have been (or are being) met through community involvement.**

* Chard, K., Foster, I., & Tuecke, S. (2017). Globus: Research data management as service and platform. In Proceedings of the practice and experience in advanced research computing 2017 on sustainability, success and impact (pp. 1–5).

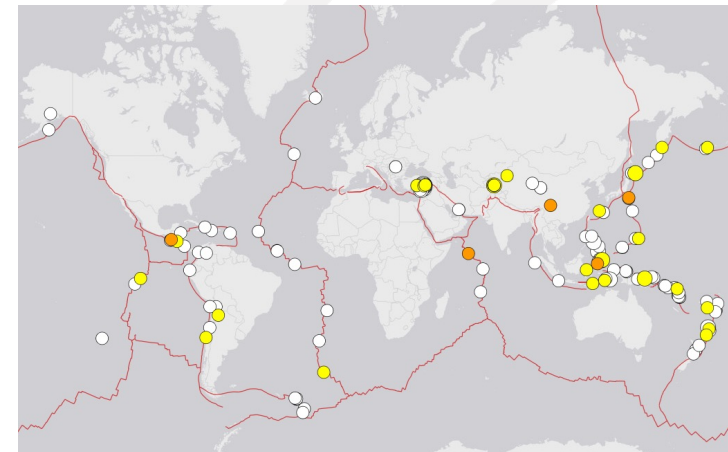

A DAS data facility for the research community with:

- Standardized data containers/formats, metadata content/formats
- Proximity to compute resources suitable for large DAS dataset research
- Standardized data products derived from original data
- Ability to deliver large datasets & products to researchers
- Perpetual storage (PIs focus on research, not data stewardship)
- Public domain DAS data processing tools

Progress Examples

- **Standard Data Formats / Containers Suitable for Cloud**
 - TileDB, Zarr (Yiyu Ni, Marine Denolle, EarthScope)
- **Metadata Content**
 - Metadata Model White Paper (Mellors, R. J., Hodgkinson, K. M., Hui Lai, V., & the DAS RCN Data Management Working Group)
- **Proximity to Computational Resources**
 - Common Cloud Platform (EarthScope DS)
- **Standardized Data Products**
 - Global DAS month (Andreas Wuestefeld)

Progress Examples

- **Large Data Transport**

- PubDAS: A PUBLIC Distributed Acoustic Sensing Datasets Repository for Geosciences, SRL (2023) 94 (2A): 983–998. <https://doi.org/10.1785/0220220279> (Spica et al.)

- **Perpetual Storage**

- GorDAS (Andrew Barbour, USGS)

- **Public Domain DAS Data Processing Tools**

- MinIO (Yiyu Ni, Marine Denolle)
- DASDAE, DASCore (2022 AGU abstract) - DASDAE: Open-source Python Packages for Easier DAS Data Use (Eileen Martin et al.)

DAS Data Facility Funding

- Express community support for DAS Data Facility
- Emphasize importance to missions of stakeholders (NSF, DOE, USGS, DOD, ...)
 - ✓ DAS is enhancing current seismological research, hazard monitoring, environmental monitoring, national security monitoring, ...
